Booms

Tried and tested Alu-light booms (up to 36 metres) equipped with stainless steel spray lines with Poziflow continuous recirculation and air on/off.

Multi-head 360° nozzle bodies carry up to 5 ceramic, high pressure, low drift tips - or Umbrella fertiliser jets.

- Standard equipment includes:
- Low centre of gravity fibreglass tank
 - 200 litre flushing tank - 15 litre handwash
 - Chemical-less sight tube
 - 6 cylinder 300 l/min pump
 - Electro-hydraulics requiring only 1 spool valve
 - Stainless steel spraylines - Line filters
 - Multi-head nozzle bodies with ceramic tips
 - Rear mudguards
 - Stainless steel chemical bowl
 - Demount legs

↑
A strategically mounted 700 litre hydraulically driven pump enables easy access to the 800 litre capacity filter for cleaning, and gives full access to the drawbar for bowser towing
Spray Pumps
PTO driven 300 l/min 6 cylinder piston diaphragm, or
Hydraulically driven 700 l/min high pressure, self priming centrifugal

Fully approved by JCB, Landquip demounts offer the very best weight distribution of any demount available for the Fastrac. The spray pump and chemical bowl are fitted to the sprayer chassis, making demounting possible in 10 minutes.

Landquip demounts are fitted with Alu-light booms, offering their well-proven and accepted features experienced by farmers for more than 20 years. These booms give an incredible in-field performance due to their levelling system that complements the Fastrac's unique suspension, allowing accurate performance at speeds up to 20 kph.

→ Trapezium boom levelling system
← Fill station with 25 litre stainless chemical bowl mounted on near-side mudguard with all taps within easy reach
