

Landquip Air Booms

**THE Landquip BRITISH-BUILT AIR SYSTEM IN OPERATION
SHOWING THE EXCELLENT CROP PENETRATION OF THE AIR BOOM**

THE ENVIRONMENTALLY FRIENDLY AIR BOOM SYSTEM
IS AVAILABLE TO FIT ALL **Landquip** SPRAYERS

ADVANTAGES

Increased productivity
Low water volume
Increased spraying days

IMPROVED PROFIT MARGINS

Reduction of chemical rates (on advice
of chemical consultant)
Less filling time

INCREASED EFFICIENCY

Better penetration of chemicals, both on
top and underside of leaves
Minimised spray drift (environmentally friendly)

EASE OF USE

When not required, the air fan can simply be
taken off by removing one pin
Simple in-cab electrical adjustment of fan speed
to suit varying stages of crop growth
Air bag can be electrically rotated forwards or
backwards from the tractor cab, to direct air blast
into crop

SPECIFICATION

Fan driven by tractor hydraulics or a power pack

Weight:- 80 - 100 kg
Boom size:- 12 - 24 metres
Fan:- High speed 800mm diameter
fan with 12 adjustable blades

RETRO-FITTING

Alu-light Air booms and/or fan systems can be
retro-fitted to other makes of sprayers and boom types
