

Landquip Premiair

The Landquip British-built Premiair system in operation showing the excellent crop penetration of the Air Boom

ADVANTAGES

- * Increased productivity
- * Low water volume
- * Increased spraying days

IMPROVED PROFIT MARGINS

Reduction of chemical rates
(On advice of chemical consultant)
Less filling time

INCREASED EFFICIENCY

boom types

Better penetration of chemicals both on top and on the underside of leaves

MINIMISED SPRAY DRIFT

Environment-friendly

EASE OF USE

- * When not required, the air fan can be taken off by simply removing one pin
- * Simple in-cab electrical adjustment of fan speed to suit varying stages of crop growth
- * The air bag can be electrically rotated forward or rearward from the tractor cab to direct the air blast into the crop

The Premiair air boom system is available to fit all Landquip sprayers with lateral bi-fold booms up to 24 metres

SPECIFICATION

Fan driven by tractor hydraulics or a power pack

Weight:- 80 - 100 kg
Boom size:- 12 - 24 metres
Fan:- High speed 800mm diameter fan with 12 adjustable blades

RETRO-FITTING

Alu-light air/fan systems can be fitted to other makes of sprayers and
