

Safe, easy exit from the field into the road

Vision front tanks are equipped with convex mirrors to offer the driver full side vision of any approaching vehicles

Hazard lights mounted onto the front of the Vision front tank are separately switched from the cab to warn approaching vehicles

Bravo Electronics - Spraying made easy

- New high resolution 5.7" display
- CanBus data transmitted by 1 single cable
- Precision rate control
- CanBus electro-hydraulic controls
- GPS sensed speed
- Manual sequential switching of up to 13 sections
- GPS automatic shut-off of each individual nozzle
- Automatic on-the-move selection of appropriate nozzle according to speed, spray rate & pressure
- Built in LED lightbar guidance system
- USB job export in Shape format

- 2GB internal memory to store jobs
- 2 camera inputs/ports
- Options:-
- Delta 80 8.4" display
- Headland nozzle switching
- In-fill sensor
- Tank contents
- In-fill electronic read-out at fill station
- Variable rate control
- Boom levelling
- Joystick controls
- IsoBus controls

Landquip Rear Fold Mounted

24 metre rear fold boom weighing 400 kg
Narrow 2.5 metre transport width

1300, 1700 or 2000 litres
18 to 30 metre **Alu-light** Rear Fold Booms

30 metre
rear fold boom

Vision 1900 litre front tank

Rear Fold Mounted

Liquid Fertiliser Ready
Operator Friendly
Robust

Tried and tested Alu-light rear fold booms (up to 30 metres) equipped with stainless steel spray lines with either semi recirculation or *Poziflow* continuous recirculation.

Multi-head 360° nozzle bodies carry up to 5 ceramic, high pressure, low drift tips or Umbrella fertiliser jets.

PTO driven 235 or 330 l/min radial piston diaphragm spray pumps

Standard equipment includes:-

- Heavy duty height mast
- Trapezium self levelling boom
- 18 to 30 metre **rear fold** booms
- Patented hydraulic anti-yaw
- 1300, 1700 and 2000 litre low centre of gravity polyethylene tanks
- Large 190 litre wash tank with 15 litre handwash tank
- Easy clean 30 litre chemical bowl
- Suction and pressure filters

- GPS guidance screen with auto switching of each individual nozzle
- *Poziflow* pressurised recirculation system
- Narrow 2.5 metre transport width - LED rear lights, indicators & flashing beacon
- Heavy duty construction
- Operator-friendly - Easy to operate and maintain
- Easy access to the pump, filters, electronic valves, and recirculation system
- Full electro-hydraulics requiring only one spool valve
- Well balanced and ideally suited for high road speeds
- Suitable for medium and large tractors with wide cabs
- A 24 metre rear mounted machine weighs in at around 1700 kg
